

Regional Transfer Center

Guidelines for transfers and admissions

John Muir Health Regional Transfer Center responsibilities

Coordinates patient transfers to John Muir Health hospitals from hospitals throughout Northern California

How to transfer a patient

1. ED physician calls the John Muir Health Regional Transfer Center at **(925) 947-4488**
2. The Transfer Coordinator, a Registered Nurse, helps to identify the appropriate John Muir Health location and physician specialty
 - Facilitates physician-to-physician communication
 - Ensures medical information is transferred to the new location
3. If required, the Transfer Center may also help to arrange patient transportation

The John Muir Health Regional Transfer Center Advantage

- ✓ John Muir Health Walnut Creek Medical Center, a Level II Trauma Center, has served as Contra Costa County's only trauma center since 1986
