Grand Opening

On March 10th, 2016 John Muir Health celebrated the Grand Opening of our Family Medicine Residency Practice with an official ribbon cutting ceremony. Cal Knight, CEO, Dr. Irving Pike, CMO, Lee Huskins CAO Dr. Maureen Stevenson COO of Ambulatory Services and Laura Kazaglis VP of Primary Care Operations, were just a few of our Senior Leaders in attendance showing their full support.

We also hosted a Community Open House on March 22nd for local dignitaries, community leaders and business associates, in efforts to build relationships and unveil the Residency as a resource to our community partners.

Both events were a huge success and so much excitement is now centered on our Residency Program!

Residency Spotlight: Our Cinco de Mayo Fiesta!

The Audition/Sub-I Rotation

Now that you have your 4th year schedule mapped out, how are you going to stand out amongst all other clerks rotating & vying for those PGY-1 slots? Here are some tips:

1. **Teamwork.** Do you work well with all members of the team, from the lowest ranking to the highest? All of our employees provide input on potential candidates. Be a good teammate and respect everyone, after all, you will work with them for at least three years.
2. **Going above & beyond.** If you have an interesting case coming in, why not take a moment to research the topic beforehand? Your preceptor will notice.
3. **Being punctual.** Otherwise, you run the risk of looking like you are not taking the opportunity seriously.
4. **Cell phone usage.** While you may use your cellphone for medical research, it is important to let your preceptor know, so it doesn't appear as though you are unengaged and using it for social purposes.
5. **Dressing appropriately.** If you are not sure what that entails, on day one show up in professional attire and then gauge how those around you dress then adjust as needed.
6. **Know the staff.** Get to know the Residency Coordinator and administrative staff. They can and will help you in so many ways.

Not joining us for a for a 4th year clerkship? You can still tour our facility. Contact Ginger Peleras to arrange your tour: ginger.peleras@johnmuirhealth.com

Watch our Residency Video to learn more about us. [Click here.](#)

March 17th, 2017 – We will match our inaugural class of eight family medicine residents through [The Match™](#).

Meet our Leadership

Program Director, Dr. Jeremy Fish

"I'm excited about leading the development of our John Muir Health Residency Program. With emphasis on leadership development, team care, digital health & comprehensive clinical training, we are committed to building the future of family medicine."

Assoc. Prog. Director, Dr. Catalina Triana

"I am committed to helping our residents reach their full potential as family physicians."

Core Faculty, Dr. Kishore Nath

"I'm committed to cultivating a passion for the underserved and harnessing residents' intellectual curiosity into becoming the quality physicians we need for the future."

DIO & Exec. Dir. of GME, Dr. John Zuorski

I have endeavored over the years to develop a voice for primary care within the medical community & earnestly want to include the voices of the family medicine residents in that discussion."
