

Dragon[®] Medical Speech Recognition

Speech recognition software
for dictation and transcription.

- Improves accuracy, efficiency and compliance
- Eliminates the need for costly manual or outside services

Testimonials

"I'm able to see a patient and, at that very moment actually dictate my note directly into Dragon without having to type it into a secondary system. It's made me more efficient and as well it has made me more compliant in regards to meeting whatever billing criteria that you need to meet."

— Dr. J. Zaka, M.D.
Pulmonary Disease / Critical Care Medicine
