

Midmark Device Integration

Streamlining your
practice workflow

Digital electrocardiogram (ECG) and spirometry devices from Midmark integrate seamlessly with Community Connect®

- Combine enhanced diagnostic capabilities with a software solution to access patient information and save test results seamlessly
- Save time and reduce data entry errors by populating patient information directly from the Midmark system into the patient's electronic chart
- Eliminate the need to print, scan and file paper test results

Midmark devices must be purchased separately, and are not supported by John Muir Health. IQecg and IQspiro are trademarks of Midmark Corporation.

Midmark Device Integration

Streamlining your
practice workflow

IQecg® digital ECG

- Instantly capture waveforms and identify any abnormal events shown on screen
- View side-by-side comparisons of current versus previous results
- Zoom and electronic calipers feature allows for more precise analysis

IQspiro® digital spirometer

- Perform pre- and post-bronchodilator testing with automatic interpretation
- Trend patient test measurements over time in graphical and tabular formats
- View real-time Flow/Volume Loop and Volume/Time graphs with fully customizable parameters
