

Specialty Care Program: 2018 Data Snapshot

PROGRAM BACKGROUND

Program Start: 2011

Program Description: Access to specialty care has been identified as one of the greatest health care needs of low income, uninsured residents in Contra Costa County. Through a partnership with La Clínica de la Raza, John Muir Health provides specialty care for uninsured and low-income patients to include diagnostic, outpatient, and inpatient care at JMH facilities from JMH affiliated physicians. The program is based in the Cancer Institute and addresses needs for breast, gynecologic, thoracic, urologic, thyroid and gastroenterological services.

Primary Goal to increase direct access to specialty services for uninsured individuals.

High-Level Results

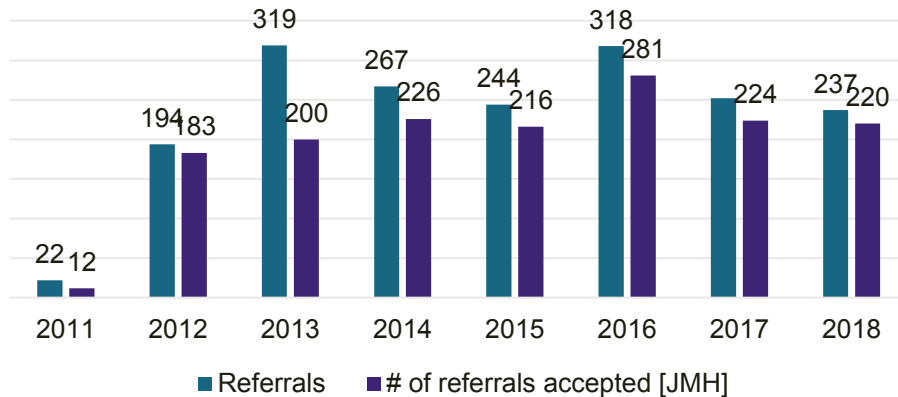

- ❖ To date, Specialty Care Program received **1,853** referrals and served **1,562** patients.
- ❖ **100%** of patients treated were uninsured.
- ❖ The program has made **55** cancer diagnoses to date.
