

Endocrinology and Metabolism

at Berkeley Outpatient Center

Overview

Endocrinology and Metabolism Services is one of several specialty services available at the Berkeley Outpatient Center. Our Endocrinology and Metabolism specialist works with referring providers to ensure patients receive the best care possible.

Conditions treated:

- Adrenal disorders
- Bone and Mineral Metabolism: Osteoporosis, Hyperparathyroidism, Paget's disease
- Diabetes Mellitus: Type 1, Type 2, Insulin pump treatment
- Endocrine Neoplasm
- Mens Health: Hypogonadism
- Obesity
- Pituitary diseases
- Secondary Hypertension
- Thyroid disease: Abnormal thyroid function, Thyroid nodule, Fine needle aspiration, Thyroid cancer
- Womens health: Irregular menses, Hirsutism, Polycystic ovary syndrome (PCOS)

When to refer patients:

Patients who experience any of the above symptoms should be referred to Endocrinology and Metabolism.

How to refer patients:

For more information or to refer a patient, please call Endocrinology and Metabolism Services at [\(510\) 985-5200](tel:5109855200).
